

Internet Browser Cheat Sheet as of January 2017

	Banner INB	GSI	Argos	Xtender	Campus Labs	Blackboard	General Internet Browsing and Tasks	Security
Firefox (* +)	No	Yes	Yes	No	Best	Yes	Good	Good
Chrome (** +)	No	Better	Yes	No	Best	Yes	Good	Best
Internet Explorer 11 (^ +)	Yes	Yes	Yes	Yes	No	Yes	No	Good
Microsoft Edge (Windows 10) (+)	No	Needs Testing	Needs Testing	No	Yes	Yes	Good	Good

* Firefox will end support for Java by March 2017.

** From Blackboard's site: Google Chrome versions 42+ and Microsoft Edge do not support NPAPI-type plug-ins, including Java plug-ins and many media browser plug-ins. Blackboard doesn't support these browsers for use in the following circumstances: 1) with embedded media types that require third-party NPAPI plug-ins for viewing and 2) the multiple-file upload interface located in the Content Collection, although the other multiple-file upload interfaces are supported on these browsers.

^ Internet Explorer 11 was deployed to all campus PC's in December 2016. This is the preferred browser for most work-related tasks.

+ Adobe Flash support is being discontinued in 2017.

Campus Labs developers have identified Google Chrome and Firefox to be the best browsers when working in Compliance Assist.

If you are using an application and are unsure of which browser to use please email Helpdesk@genesee.edu.
